Brand New Book ***** Print on Demand *****.Excerpt from The American College in Relation to Liberal Education The University of Rochester had its beginning in a liberal and progressive apprehension of educational needs. It was distinctly seen by its founders that an atmosphere of human activity and social refinement is needed to stimulate intellectual culture and invigorate moral character; and, accordingly, this beautiful and prosperous city, which has since become even more conspicuously a centre of elevating influences, was chosen as its seat. Far enough West to feel the thrill of enterprise and to share in the optimistic hopes of Western life without being subject to its provincialisms; far enough East to enjoy the benefits of our oldest American civilization without being influenced by its archaic customs and colonial traditions - Rochester, on the principal highway between the great lakes and the Atlantic, satisfies all the conditions of an ideal university town. The company of men who have shaped the destinies of this institution was originally formed by the selective power of a common conviction that a great opportunity creates a great obligation; and the corporation has since been recruited from among those who shared in this conviction. The not inconsiderable resources which years of generosity and prudence have accumulated are mainly the continued tokens of the satisfaction and perseverance with which the fathers of the enterprise themselves and their colleagues in munificence have regarded their undertaking.
