On this system, the diversities in bodies may be explained, either by an essential difference in the atoms themselves, or by a difference in their form, size, position and distance. When two substances combine chemically, the atoms of one penetrate the interstices of the other, and the atoms of the two combine so intimately, that they become, in a manner, new sorts of constituent particles, excepting that they are not simple, but compound. Dynamometer. Instruments for measuring the relative strength of men, and also of animals, are so called. Dyspepsia (SvTMcPta, from l-s, bad, and Tppis, digestion); difficulty of digestion.
